Subject: Re: Did you get my fax? I would really like to get things rolling and have you come for a visit. Hope all is well. Jb.

Hi John,
I did get the fax today and I am ready to move on regarding the doping and LA.I was hoping for some language that would be acceptable to the both of us.You indicated that you would work on some wording and you would then throw it back and we could add what we thought would be relevant responses to questions that could be asked by journalist.My understanding from the fax is that you want me to avoid talking about individual riders.I am ok with that but would like to work on ways to work around the inevitable question about individuals and how to skirt around direct questions.Let me know how you want to move ahead.I am leaving to Japan tomorrow for a week and when I get back we could look at a time for me to come to Waterloo.If Dean Gore would like me to visit the LeMond distributor while I am in Japan you could have him email me the contact and I will do my best to make some time to visit him.
All the best,
Greg LeMond

Hi John,
It was nice to see you and Aaron Mock and the guys who have been working on the new bikes.I am excited to get back into the promoting the bikes and really excited about the new carbon bikes.I want to reassure you that I have no intentions of going out there and blasting off on LA.I want to move beyond this last period and start to enjoy riding the bike and the bike business.I will be available to get behind the launch of the new bike and just let me know in advance what dates you need me.
All the best,
Greg LeMond
